

Programme of Contract Management Seminars

Infrastructure and Energy Seminars - 2017 Series

For the 4th series of our breakfast training seminars, we will be running seminars throughout 2017 focusing on the important issue of Contract Management.

25 January

Contract Management – Changes to be introduced by the second edition of the FIDIC Yellow Book (2017)

- New requirements for programming
- Detailed step-by-step procedures for Contract Management
- New time limits

16 March

Contract Management Obligations – Who is doing what & when?

- Role and integration of the contract manager within the procurement, project and legal teams
- New challenges and opportunities for the contract manager on projects using BIM
- Contract administration and record keeping
- Contractor's and employer's claims: what notice to give and when?

18 May

Time related Claims – Dark Arts?

- Extension of time and delay damages
- Methods of delay analysis
- Concurrent delay in Common Law/Civil Law
- Who owns the Float in a programme?
